Abstraction and Aging - A Social Psychological Analysis ...

Abstraction is one facet of intellectual functioning. The study of abstraction allows extremely valuable insights into human intelligence. While this monograph indicates that the ability to think abstractly declines slightly with age, there are a number of variables determining abstract thinking and its relation to intelligence over the life-span. Semiconductor Engineering ;. Abstraction Aging

An abstraction means that some information is missing, and too many times what was missing was important when being used for analysis. The accuracy loss approaches the fidelity of the model, which means that you can no longer make reliable decisions at the higher level and guarantee

the quality of what would be produced downstream. If there is any chance that what you thought was an
