### How to Build a Swimming Pool (with Pictures) - wikiHow

To build a swimming pool, start by excavating the area where you want the pool to go and grading it so it's as flat as possible. Then, you'll need to frame the sides with wood or metal rebar and install the plumbing and electrical lines. Once you've done that, you can pour the floor of the pool with cement and build the walls using cinder blocks. Finally, line the walls and floor with tile or
