Current Issues in Liver and Small Bowel Transplantation ...

Indications for and have become living donor liver transplantation are widening in Japan similar to those for cadaveric donor liver transplantation in the United States and Europe. At the same time, split liver transplantation from cadaveric donors shares some technical aspects with living donor liver transplantation. Remarkable progress has been reported recently, and thus it was an auspicious time to hold a symposium on Current issues in liver/small bowel transplantation in Japan. We

Current Issues in Liver and Small Bowel Transplantation ...

At the symposium, we focused on current issues in liver transplantation such as widening indications for viral hepatitis and malignant tumors. We also discussed technical aspects and physiological problems in split/living donor liver transplant, novel strategies in immunosuppression, and the current status and future prospects in small bowel transplantation. This book contains the papers
