Simple (but effective) dashboards in SharePoint ...

One of the more common requests I get about putting SharePoint to good use is how to build a hyper-responsive, beautifully designed, amazingly cogent dashboard displaying all the key performance indicators (KPIs), report updates, big data analyses, and business intelligence of the day.

[Getting started with dashboards - Office Support](#)

A dashboard is a related group of interactive scorecard and report views that are organized together in a SharePoint or Web-hosted site. A dashboard might resemble the following image:

[SharePoint Dashboard - Wikipedia](#)

A dashboard is a document presenting the most significant information about a subject on a single page. Microsoft SharePoint is a web application platform launched in 2001 as a centralized replacement for multiple web applications and supports various combinations of enterprise website requirements.

[Building Dashboards in SharePoint and Office 365 | IT Pro](#)

So, what does every organization need to do with SharePoint and Office 365, build dashboards!! This has been a requirement for I think every client I have ever worked with over the past few years.

[How to Build a Management Dashboard with SharePoint](#)
