[Evolutionary Embryology - Developmental Biology - NCBI ...](#)

Charles Darwin's theory of evolution restructured comparative embryology and gave it a new focus. After reading Johannes M ller's summary of von Baer's laws in 1842, Darwin saw that embryonic resemblances would be a very strong argument in favor of the genetic connectedness of different animal groups.

Human embryonic development - Wikipedia

Human embryology is the study of this development during the first eight weeks after fertilisation. The normal period of gestation (pregnancy) is nine months or 38 weeks. The germinal stage refers to the time from fertilization through the development of the early embryo until implantation is completed in the uterus .

EMBRYOLOGY - learninggnm.com

The science of embryology and our knowledge of the evolution of man is the foundation of medicine. They are the two sources that reveal to us the nature of cancer and of all so-called diseases.
