[Health-Related Quality of Life and Well-Being | Healthy ...](#)

Health-related quality of life (HRQoL) is a multi-dimensional concept that includes domains related to physical, mental, emotional, and social functioning. It goes beyond direct measures of population health, life expectancy, and causes of death, and focuses on the impact health status has on quality of life. A related concept of HRQoL is well-being, which assesses the [Health Related Effects of Phyllosilicates - Springer](#).
