The Parkinson's Academy has worked together with Dr

Frank Phelan, to develop this MasterClass project into a fully-fledged video guide to the diagnosis of Parkinson's disease and other movement disorders.

#### **Parkinson's disease - Symptoms and causes - Mayo Clinic**

Parkinson's disease is a progressive nervous system disorder that affects movement. Symptoms start gradually, sometimes starting with a barely noticeable tremor in just one hand. Tremors are common, but the disorder also commonly causes stiffness or slowing of movement.

#### **Parkinson's Foundation: Better Lives. Together.**

Parkinson's disease (PD) is called a movement disorder because of the tremors. Involuntary shaking of the hands, arms, legs, jaw or tongue. The typical Parkinson's tremor is pill-rolling: it looks like holding a pill between thumb and forefinger and continuously rolling it around.

#### **Parkinson's Disease, Clinical Genomics and Movement**

---

About The Parkinson's Disease, Clinical Genetics and Movement Disorders Lab studies how genetic factors contribute to disease with a goal of developing therapies for particular genetic defects that cause Parkinson's disease and other movement disorders.
