The diffusion of power from states to nonstate actors in the 21st century has left more and more things outside the control of even the most powerful states. To accomplish their goals, states must

[U.S. Power in the 21st Century - The Globalist](#)

The United States was the most powerful country in the world throughout the 20th century. There was talk in the late 1980s that the United States had reached the apogee of its power and was likely to decline in the years ahead much the way Britain's strength withered away after 1900.
