[Common Pressure Washer Repair Problems - Pressure Cleaned](#)

[Common Pressure Washer Repair Problems](#) A pressure washer is a handy tool that can be used to create higher levels of cleanliness around your property. It can even remove graffiti or unwanted dirt and debris from your fencing or the side of your home.

[How to Repair a Pressure Washer Pump | Hunker](#)

The pump on your pressure washer is one of the most important parts of the unit. The pump is what moves the water through the washer. If you are having problems with your pressure washer's pump, there are a couple of things you should check before you take the pressure washer to a technician or a service shop.

[How to Diagnose Pressure Washers :](#)

[eReplacementParts.com](#)

Owners of pressure washers often report symptoms that are difficult to diagnose, like low pressure, high pressure, no pressure, surging pressure, and pump issues. Pressure washer symptoms are difficult to diagnose because each symptom can be caused by more than one problem in almost any area of the washer.
