[Principles of Health Interoperability: SNOMED CT, HL7 and ...](#)

The five new chapters on Fast Health Interoperability Resources (FHIR) and its implementation in Principles of Health Interoperability: SNOMED CT, HL7 and FHIR, Third Edition cover the most important new healthcare interoperability standard for a generation. FHIR combines the best features of HL7 v2, v3 and CDA, and leverages the latest web standards. In addition, the authors discuss the core principles of healthcare interoperability, SNOMED CT and clinical terminology, HL7 and interchange.

[Principles of Health Interoperability HL7 and SNOMED ...](#)

Interoperability is one of the core themes of the US Federal Health Information Technology Strategic Plan, which states: to effectively exchange health information, health IT systems and products must use consistent, specific data and technical standards. 1 Health interoperability has been given a massive impetus in the 2009 Health Information Technology for Economic and Clinical Health.
