Pyjs

What is pyjs Desktop? pyjs Desktop allows the exact same Python web application source code to be executed as a standalone desktop application (running under Python) instead of being stuck in a Web browser.

Pyjs

Supported Built-ins. Here, also, is a list of supported built-in functions, classes and types. Again: these have been contributed by various pyjs developers, and again, if there is a particular function or feature missing, it can be submitted as a contribution on GitHub.
