Risk management method in which the cost of the consequences of a risk is distributed among several participants in an enterprise, such as in syndication.

Risk Sharing | Insurance Glossary Definition | IRMI.com

Risk Sharing Definition Also known as "risk distribution," risk sharing means that the premiums and losses of each member of a group of policyholders are allocated within the group based on a predetermined formula.

Market access: Risk sharing and alternative pricing schemes

At launch, a pharmaceutical company usually knows a product's short-term clinical performance, diminishing the need for complicated risk-sharing deals. However, an arrangement between Merck and Cigna for diabetes drug Januvia is an interesting exception.

Pharma Innovation | Pharmaceutical Technology

"Innovation." This word is at the heart of bio/pharmaceutical development and manufacturing, whether innovators are targeting a new cell line or formulation, a drug delivery target or method, an analytical or packaging approach, or a quality system.

Risk Sharing Agreements | Outsourcing Law

Risk sharing occurs when two parties identify a risk and agree to share the loss upon the occurrence of the loss due to the risk. This is typically done in joint ventures (where equity owners share risks of the loss in proportion to their stakes in the venture), new ventures and relationships where each party shares actual operational control.
