[IUFRO: 1.02.00 - Tropical and subtropical silviculture / 1 ...](#)

Silviculture, dealing with the establishment, care, reproduction and harvesting, aims at providing the biological and technical guidelines or options to achieve management objectives. Appropriate silviculture is therefore not synonymous to sustainable management but without sound silvicultural systems, sustainable forest management is impossible.

### **Introduction to Silvicultural Systems**

Silviculture is the art and science of controlling the establishment, growth, composition, and quality of forest vegetation for the full range of forest resource objectives. Successful silviculture depends on clearly defined management objectives.
