Gazettabyte: Ciena brings data analytics to optical networking

The data will allow operators to fine-tune transmissions to adapt to changing networking conditions. We do believe we are taking that first step towards a more automated network and even laying the foundation for the vision of a self-driving network, says Helen Xenos, director, portfolio solutions marketing at Ciena.

Social network analysis - Wikipedia

Social network analysis (SNA) is the process of investigating social structures through the use of networks and graph theory. It characterizes networked structures in terms of nodes (individual actors, people, or things within the network) and the ties , edges , or links (relationships or interactions) that connect them.
