Resilience Management in Social-ecological Systems: a

...

The framework we have presented for analyzing resilience in regional-scale social-ecological systems is suggested as a basis for such management. It involves a stakeholder-driven description of the system and the issues, leading to a limited set of scenarios that capture the major uncertainties in the system's future dynamics. A variety of simple models and other means of describing the

Enhancing the Resilience of Human Environment Systems: a ...

ABSTRACT Resilience studies build on the notion that phenomena in the real world should be understood as dynamic social ecological systems. However, the scholarly community may not be fully aware that social ecology, as a conceptual framework, has a long intellectual history, nor fully cognizant of its foundational theory.
