How to Do Double Digit Multiplication: 10 Steps (with ...

To do double digit multiplication, start by putting one number on top of the other number and draw a line under them. Then, multiply the bottom ones number by the top ones number and write the answer under the line. Next, multiply the bottom ones number by the top tens number and write that answer next to the first answer. Once you've done that, place a 0 under your result. Multiply the bottom
